

ORIANA WEDDINGS

Website Implementation Plan

A search-first website where SEO + GEO are built into the experience — not added afterwards.

CALICUT / KOZHIKODE • KERALA

Prepared around the client-provided SEO Audit & Target Keyword Strategy Brief.

THE IDEA

Build the website around what couples search for — while keeping the brand exactly how Oriana wants it.

01 — THE WEBSITE SYSTEM

One website. Three layers.

The client’s navigation remains the visible structure. SEO and GEO are merged inside those sections through page content, internal linking, structured data, local signals and real wedding content.

BRAND	SEARCH	DISCOVERY
Oriana Weddings Story · Visual identity · Trust	SEO Keywords · Pages · Technical foundation	GEO / AI Clear entity · Context · Evidence
↓	↓	↓
Website experience	Google Search + Maps	AI / Generative Search
↓	↓	↓
Portfolio → WhatsApp → Enquiry	Local visibility → qualified traffic	Brand understanding → discovery

The implementation principle

Every important page should have a job. A page should establish the brand, capture a search intent, prove the quality of the work, strengthen local relevance, or move the visitor towards an enquiry.

02 — MAIN NAVIGATION

Keep the client's structure. Make every section work harder.

HOME	Primary brand + local landing page	Wedding Photographer in Calicut / Kozhikode
ABOUT ORIANA	Brand / entity page	Who Oriana is · where Oriana is · what Oriana does
WEDDING PHOTOGRAPHY	Core commercial service	Wedding photography · candid · traditional · pre/post wedding · packages
WEDDING FILMS	Dedicated film service	Wedding videography · cinematic films · teasers · storytelling
PORTFOLIO	Visual proof + search content	Real weddings · venue stories · wedding films · galleries
ORIANA GROUP	Brand ecosystem	Oriana Weddings · Baby Crew Studios · DEOR Fashion · ORION Events · Odonata Republic
CONTACT	Local trust + conversion	Address · phone · map · WhatsApp · enquiry

Navigation rule

The menu stays clean and premium. The deeper SEO architecture lives inside the pages, portfolio stories, journal content and internal links — so the user never feels like they are navigating an “SEO website.”

03 — CORE PAGES

01 / Home + About Oriana

HOME	ABOUT ORIANA
Hero Wedding Photography & Films in Calicut Then Oriana introduction · services · featured weddings · films · trust · enquiry CTA	Story Who Oriana is · Kozhikode base · Kerala service area · approach · team · experience Then Testimonials · proof · links to services + portfolio
SEO focus wedding photographer in Kozhikode wedding photographer Calicut wedding photography Calicut	GEO focus Make the brand answerable as a clear entity: who, where, what, service area, proof.

Home = the front door. About = the identity.

04 — CORE SERVICES

02 / Wedding Photography + Wedding Films

WEDDING PHOTOGRAPHY	WEDDING FILMS
Main page: Wedding Photography in Calicut • Candid Wedding Photography • Traditional Wedding Photography • Pre-Wedding Photography • Post-Wedding Photography • Wedding Photography Packages	Main page: Cinematic Wedding Films in Calicut • Wedding Videography • Cinematic Wedding Films • Wedding Teasers • Storytelling Wedding Films • Save-the-Date Videography
Keywords wedding photography packages kozhikode candid wedding photography kozhikode traditional hindu wedding photographer kozhikode post wedding photography calicut	Keywords wedding videographers in kozhikode cinematic wedding teaser kerala kerala christian wedding video calicut save the date videography kozhikode

Implementation rule

Each service gets a clear purpose and vocabulary. Do not force every keyword into one page. Let photography own photography intent; let films own film intent.

05 — PORTFOLIO

03 / Portfolio becomes searchable proof

The portfolio should remain visually premium, but selected real weddings should also become individual content assets.

PORTFOLIO HOME

Weddings · Wedding Films · Candid · Traditional · Pre-Wedding · Featured Stories

REAL WEDDING STORY

Couple · Venue · Location · Wedding type · Photography approach · Selected images · Film · Enquiry CTA

Wedding + venue + location + service

Long-tail content from the client brief

wedding photographer at [venue name] · [venue name] wedding photos · destination wedding photography wayanad · beach wedding photographer kerala

Real work is the content. The SEO layer simply makes that work easier to discover.

06 — BRAND ECOSYSTEM

04 / Oriana Group + Contact

ORIANA GROUP

A creative ecosystem spanning photography, fashion, events and luxury products.

□ Oriana Weddings — Wedding photography & films

Baby Crew Studios — Baby photography & related services

DEOR Fashion — Fashion photography & fashion

ORION Events — Wedding & corporate events

Odonata Republic — Fashion & luxury products

CONTACT

Local identity

1st Floor, Marine Building, Cherooty Road
Kozhikode (Calicut), Kerala — 673001

Primary: +91 96055 75311

Secondary: +91 96055 75330

Map · WhatsApp · Call · Enquiry form · Instagram

SEO + GEO role: connect the group identity without making the wedding brand compete with unrelated group services.

08 — LAUNCH FOUNDATION

SEO is built in before launch

BUILD	SEO	GEO	CONVERSION
Fast · responsive · premium visual experience	Titles · headings · URLs · internal links · sitemap · indexing	Clear entity · structured information · service/location context	WhatsApp · Call · Enquiry · Portfolio CTAs

Technical

Indexing · mobile responsiveness · page speed / Core Web Vitals · SSL · sitemap · canonical structure

Structured data

Appropriate business, service, breadcrumb and image-related structured data

Local

Google Business Profile · categories · reviews · photos · business hours · NAP consistency

YouTube

Geo-targeted titles · descriptions · links to relevant website pages

Social

Instagram link-in-bio → portfolio → WhatsApp / booking

Citations

Justdial · WedMeGood · WeddingWire · Quickerala · Magicpin and other relevant listings

09 — FINAL IMPLEMENTATION MAP

The finished website should feel like Oriana — and behave like a search system.

Minimal on the surface. Structured underneath.

That is the implementation direction for orianaweddings.com.
